Prime Minister
MESSAGE

In Indian culture, the Guru (teacher) is considered to be a most revered figure. The teachers educate our children, mould their character, and instill in them the values that help the cause of nation-building.

On the occasion of Teachers' Day we remember one of the outstanding teachers of our country, Dr. S. Radhakrishnan, who remains a great source of inspiration to the entire nation.

The success of any educational endeavour is based on the ability and motivation of teachers. The implementation of the Right to Education is no exception. On the occasion of Teachers' Day, I call upon our teachers across the country to adopt the national mission of educating all our children with renewed vigour and commitment.

I extend my warm greetings to the teachers and wish them all success.

(Manmohan Singh)
